

National Signal continues to innovate with the addition of our 'mid-size' message sign.

The SR480 combines the features of our large and small signs into a convenient package that delivers great legibility in a compact easy to use package. The SR480 comes equipped with 15" high characters, manual lift, or an electro-hydraulic lift option.

- *AllnGaP LED technology*
- *Environmentally friendly*
- *Cost effective*
- *Reliable and easy to operate*
- *Hundreds of pre-programmed messages, MUTCD messages, and operator-created messages*
- *Replace characters without the need of tools*
- *5 LEDs per pixel*

With our newly positioned control there is no more kneeling or bending over to program your message.

And now, you can see your message while you program. No more walking around the sign.

Find out more about the other great features of our SR480 on the next page.

Specifications
